Re: Notice of Ex Parte presentation; MB Docket 15-149; *Applications of Charter Communications, Inc., Time Warner Cable Inc., and Advance/Newhouse Partnership for Consent to the Transfer of Control of Cable Television Service Applications.*

Dear Ms. Dortch:

On October 10, 2015, Charles Humbard, President and CEO of UP Entertainment, LLC, Melissa Ingram, Senior Director of ASPIRE, Amy Mehlman of Mehlman Capitol Strategies, and the undersigned of UP Entertainment LLC, met with Owen Kendler, Hillary DeNigro, Ty Bream, Julie Saulnier, Bahareh Moradi, Calisha Myers, and Susan Singer. Tim Winter, president of the Parents Television Council also attended the meeting in support of independent, family-friendly programmers.

During the meeting, UP and ASPIRE representatives expressed their continued general support of the above-referenced applications and their expectation that the proposed New Charter entity will carry on Time Warner Cable's longstanding tradition of promoting diverse and family-friendly independent programmers such as UP and ASPIRE. The UP and ASPIRE representatives also reviewed UP and ASPIRE programming with a presentation of the enclosed materials. In particular, the UP and ASPIRE representatives noted the potential impact of carriage loss in Time Warner Cable markets such as New York City and Los Angeles and how such programming loss would deliver a crippling blow to any independent network.

Tim Winter of the Parents Television Council noted that his organization's mission is to protect children from the graphic sex, violence and profanity that is so prevalent on television today and to advocate in favor of television programming that is safe for children and families to watch. He cited examples of cable networks that had, at one point in time, provided family-quality programming but have recently shifted to airing programming that is sexually explicit, graphically violent, and profane. He noted that the Parents Television Council is concerned that the above-referenced applications merger will result in fewer family-friendly programmers; and that such a consequence of the merger would not be in the public interest.

Given the necessity for the Commission to consider core public interest value such as the promotion of programming diversity in this proceeding, the UP and ASPIRE representatives urged the Commission to preserve the programming diversity achieved by Time Warner Cable and Bright House through specific conditions and to encourage Charter to embrace and expand its commitment to such programming as it promised in its Public Interest Statement.

Respectfully submitted,

Reta Peery
EVP, General Counsel

Attitudes Toward TV

There should be more positive portrayals of Black People on television today

It's important to me to have programming that provides a connection to my culture and heritage

I can relate to many of the African-American characters that I see on television
